ABOUT ME

I am Ivan, 31 years old. I started this job when I was just fifteen. Despite having a degree in Pharmacy, my love for videography, especially marriage, has led me over the years to study and update myself in this field, making my passion my job.

My passion has always pushed me to research new incentives in this field, allowing me to reach important personal ones as well; but, needless to say, the greatest satisfaction this job gives me is the satisfaction of my spouses.
