

OTA OLIVE OIL

ABOUT US

We are **artisanal extra virgin olive oil producers**. Our olive groves are located in the **coastal city of Trieste**, in north - eastern Italy, where the Mediterranean encounters Central Europe. We personally work in every production phase, from cultivation, harvest and bottling, all the way to label design. We strive to reach the best possible quality for our products, which recently received **international awards**, both for the quality of our oil and for the design of the labels.
